

My name is Berit H Rasmussen. I am 38 years old and live in Denmark with my husband and two kids.

In 2015 I finished my masters in veterinary science and I am currently a member of the board of PHCDK.

I have had paint horses for more than 15 years and love their gentle nature. It is my wish that other people may enjoy their horses as much as I do, and I am determined to help other paint horse owners getting ideas through to make APHA a great association that fit everybody's needs.
