As a wise old friend says, “don’t get on the horse if you’re not ready for the ride.” It’s taken me 12 months to get fully centered in the saddle. Despite the bumps that come with anything new, I’m encouraged, strengthened and very hopeful about APHA’s future. The ride is occasionally bumpy but the view is spectacular.

In 2012, APHA can be proud of a few significant accomplishments that will lead to many more in 2013. We’ve moved together and with purpose to grow APHA by:

- Developing one of the richest and most sustainable 2-year-old Pleasure classes in the world. Riders in the Farnam 2-Year-Old Western Pleasure and Hunter Under Saddle classes will compete for \$50,000 in purse money in 2013.
- Celebrating our 50th Anniversary in style.
- Adopting a single-convention meeting format that debuts in 2014. More people with diverse views will have greater opportunity to present their views.
- Adding a new Director of Judges—David Dellin—and a renewed commitment to judge support and training that will give judges and exhibitors more confidence in the ring.
- Shaking hands with Farnam as APHA’s newest Corporate Partner. Farnam will demonstrate its commitment to APHA in many other ways in 2013.
- Developing a model MemberCare center that reduces costs for APHA and provides customers with better service.
- Launching the first APHA Hall of Fame class. These induction ceremonies in the future will become the highlight of APHA’s convention. Many joyful tears will flow in the future as did on that evening in 2012.
- Launching the very first digital *Paint Horse Racing Magazine*. When we dissolved the printed magazine, it had 300 subscribers. On the launch of the first digital issue it had almost 1,000 subscribers.

Here are some things you can look forward to in 2013:

- Providing members a way to save money on John Deere tractors, Sherwin-Williams Paint, and a host of other goods and services. You’ll hear more about our new APHA Xtras program soon. It’s a money-saver to members.
- Improvements to both World Shows that should increase the size of classes and bring more horses to the shows.
- A new APHA credit card that members can personalize.
- We’re adding more features to MemberCare this year that will speed up the posting of show results, registrations and other APHA work. Technology and more training will keep us in a constant state of improvement.
- At least two additional Corporate Partners that will create more opportunities for members and add value to APHA memberships.
- A complete redesign of the *Paint Horse Connection*. We haven’t said much about this, but you’ll never want your membership to lapse again after you see the first edition this summer.
- A few new things up our sleeves that will make trail riders feel more at home at APHA.

We still have a long way to go to rebuild our membership base, but we’re still the second-largest equine breed association in the world. We’re proud of where we are headed. Thank you for letting me take the ride.

Sincerely,

Billy Smith | APHA Executive Director

A Message from the President

In reflecting on 2012, I'm proud of the growth and progress our association made during these past 12 months. These positive changes will propel us into 2013, and I'm looking forward to building on the momentum we established in 2012.

As much as the past has shaped us all—as APHA members, breeders and owners of these great horses—we'll all have a hand in shaping the association's future. That theme was evident in 2012, especially as we celebrated the association's 50th anniversary.

A record crowd attended the 2012 APHA Convention, October 4–6 in Fort Worth, Texas. It was exciting to see so many members of the APHA family gathered together to celebrate the breed's first 50 years, and vote on rules to impact its future. The enthusiasm was catching—everyone in attendance enjoyed the inaugural Hall of Fame induction ceremony, tours of the APHA headquarters, art unveilings and speeches from friends and founders. We look forward to building on the Hall of Fame in the future, and I can't wait to see future inductions.

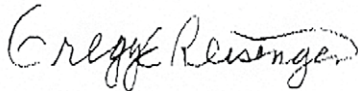

Another spark of enthusiasm permeated the world shows this year. The friendly atmosphere, sportsmanship and fun were more noticeable than ever at the 2012 AjPHA Youth World Championship Show. The Open/Amateur World Championship Show saw the inaugural \$40,000-payout Farnam Breeders' Trust 2-Year-Old Western Pleasure Stakes class—won by Randy Wilson riding Agent Dinozzo—and I've heard from many who plan to take advantage of this exciting opportunity in future years.

In many ways, 2012 served as a building block. We could never overlook the rich history that brought the American Paint Horse Association to its current position as the world's second-largest equine breed association, but we're ready to embrace positive changes to make the next 50 years—and beyond—just as memorable.

I hope you'll join me in the association's great future. Whether you become a member, breed a Paint Horse, participate in programs like Paint Alternative Competition or Ride America, or show or race American Paint Horses, we're ready to welcome you—or welcome you back—into the APHA family. There's never been a better time to get involved in this organization.

Our colorful past has shaped us, and 2012 has reenergized us. Here's to 2013 and beyond.

Sincerely,

Gregg Reisinger | APHA President

The Year In Review 2012

APHA's dedicated staff, executive committee, board of directors and members all looked forward to an exciting year of celebration and continued to work tirelessly to move the Association forward through the next 50 years and beyond.

The creation of MemberCare consolidated seven business units into one and united additional business units for increased efficiency.

Owned by Chloe Dedden of Burlington, Kentucky, A Cat Named Sue has earned more than \$80,000 in National Cutting Horse Association lifetime earnings.

January

- APHA started 2012 with a total of 1,014,871 registered horses. There were 12,815 horses registered in 2012 and 20,322 transferred. Prior to that, Smith was a journalism/advertising professor at West Texas A&M University and freelance writer for various news and corporate publications.

February

- APHA officially turned 50 years old February 16, 2012 and boasts registering more than one million horses. In anticipation of the anniversary, APHA created a Hall of Fame at its international headquarters in Fort Worth, and an inaugural class of 25 members and 25 horses were inducted at the association's annual Convention in October.

March

Marketing and publishing divisions were revamped to create a business unit responsible for sales and exploring entrepreneurial opportunities.

The late Dr. Lyle "Doc" Wonderlich's passion for Paint Horses extended to the Youth Development Fund and Heritage Foundation (now the American Paint Horse Foundation).

Gist Silversmiths designed only 500 custom buckles to commemorate APHA's 50th anniversary.

At the opening ceremony of the reception, Fort Worth City Councilman Dennis Shingleton delivered a proclamation declaring October 4, 2012, as American Paint Horse Association Day.

Suanne Wamsley produced "Sustaining the Legacy" in her Sunbird Studio in Ruidoso, New Mexico, using her signature photo-realism technique.

Hall of Fame inductees Sam Ed and Margie Spence of Southlake, Texas, gave generously to the association—Margie as an equine photographer, and Sam Ed as APHA Executive Secretary and founder of the Paint Horse Journal.

Year of Celebration: 50th Anniversary

Fifty years ago, a unique young horsewoman from Gainesville, Texas, had a dream of combining the best of two horse worlds—a dream to create an organization that recognized horses with not only beautifully colored coats but also sound Western stock horse conformation. Rebecca Tyler Lockhart couldn't have imagined that her dream would grow into the second-largest equine breed registry in the world, registering over one million horses in its first fifty years alone.

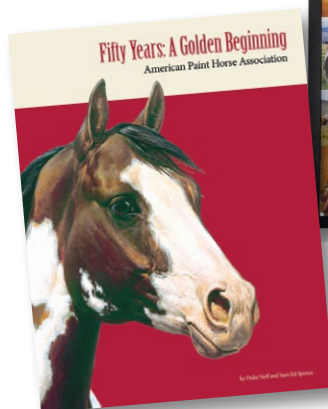

APHA and its members celebrated this milestone in many forms throughout the course of the year.

To commemorate the association's 50th anniversary, American Paint Horse Association members were able to purchase a retro-style reproduction of the Certificate of Registration for any registered Paint Horse, complete with APHA's 50th anniversary logo and hand-colored likeness of the horse. The historic reproduction certificates are a nod back

to the days when the horse's markings were detailed on the document by hand.

APHA founders and staff gathered on February 16, 2012, to honor and celebrate the official founding day of the 50-year-old association. The luncheon was held at the site of the former Curtwood Hotel, now a modern Chili's restaurant, where organizational meetings were held over coffee in the early sixties. A historical marker is also planned for the site. The stories told during the Founders Luncheon focused on not just the horses, but also the people who had a vision for the association and a love of colorful horses.

A framed memorabilia shadow box (right) was presented to the manager of the Chili's restaurant to honor the original site where the breed organization formed its roots.

Fifty Years: A Golden Beginning (left) brings fresh insight from some of APHA's most influential history-makers.

Two very special limited-edition buckles were designed by APHA Official Silversmith Gist to commemorate the association's 50th anniversary, and were auctioned via eBay to raise more than \$2,400 for the American Paint Horse Foundation. The winning bid on Buckle No. 1 was made by Toby Pippin of Marietta, Georgia. Toby is also a lifetime APHA member who owns and has shown her Paint Horses in numerous events and disciplines.

Judy Ford of Whitesboro, Texas, placed the winning bid on Buckle No. 50. An avid breeder, owner and exhibitor of Paint halter horses, Judy is a lifetime APHA member devoted to promoting her favorite breed of horses.

The two winners also received a gold leaf on the American Paint Horse Foundation's Heritage Tree located at APHA headquarters to honor their contribution.

Friends, fans and supporters of Paint Horses had a unique opportunity to join the world's second-largest equine breed association. The Golden Anniversary membership promotion began October 1st and made joining the Paint community easier, faster and more attractive than ever before.

Joining the unparalleled collection of artwork displayed at APHA headquarters in Fort Worth is "Sustaining the Legacy," an original colored-pencil illustration by noted equine artist Suanne Wamsley. The piece was specially commissioned to mark APHA's 50th anniversary.

APHA released *Fifty Years: A Golden Beginning*, a book that chronicled the formation, progress and rapid growth of the breed and association. The book was written by APHA Distinguished Service Award Recipient Duke Neff and former APHA Executive Secretary and *Paint Horse Journal* founder Sam Ed Spence.

Held in conjunction with the 2012 Convention, the 50th Anniversary Reception was the largest function ever held at APHA headquarters. To honor APHA's past and celebrate its future, 350 Paint Horse devotees gathered for an evening of celebration.

During the 2012 Convention, APHA inducted its first class of honorees into the newly created APHA Hall of Fame. A total of 50 influential members of the Paint Horse community—25 horses and 25 people—were honored at the induction ceremony.

The first APHA Hall of Fame class included the following influential horses and horsemen:

Distinguished Service Award

In 1983, APHA celebrated its 20th anniversary by creating a Distinguished Service Award, to be presented annually at the APHA National Convention. The award has been given each year (with the exception of 1988 and 2002) to a special APHA member who has helped the Association make significant strides.

Grace Harris is 2012 APHA Distinguished Service Award Recipient

At the 2012 APHA Convention in Fort Worth, Texas, Grace Harris of Vancouver, Washington, was named the association's Distinguished Service Award recipient.

A true ambassador for the Paint Horse breed, Grace has supported the association with local and national participation through 37 years of promotion and service. Her passion for the Paint Horse has drawn many members to APHA, and she never misses an opportunity to promote the breed or support a sponsored event.

In addition to holding positions as club treasurer and Paint-O-Rama manager, Grace served as a national director for 33 years, from 1984 to 2012. She helped develop the successful Northwest Stallion Service Auction Futurity program, of which she was the manager and treasurer for 20 years. She was the chairman of the International Committee in 2001 and 2002, and served as the vice chairman of the International, Membership and Regional Club committees from 1995 to 2000.

Grace has bred and shown her own Paint Horses for many years, and has a passion for educating others about the breed. She introduced many 4-H members to the Paint Horse breed through loaning her horses to club members and assisting in transportation to local shows.

"Everybody knows I'm the Paint lady in this area!" Grace said. "We also had racehorses, so my husband [Richard] had racehorses and I had Paint Horses. It's taken me so many places, and every place I go I tell people about Paints and look for Paints."

From breeding and showing exceptional Paints to promoting the breed through education and member outreach, Grace's years of dedication to APHA have been invaluable. APHA is proud to recognize Grace as the worthy recipient of the APHA Distinguished Service Award.

"I don't look back much, I look to the future," Grace said. "Everything about Paints has been fun for me. What's been so neat about my adventure is all the people who have helped me along the way."

Incentive Programs

Breeders' Trust records another successful year

In 2012, the incentive program for Paint Horse owners, exhibitors, racers and breeders boasted a total of \$766,839.

Breeders' Trust funds are based on a point system, with each point being worth a specific amount of money. The 2012 value was \$8.96 per point. Yearly dividends are paid to subscribed stallion owners, foal nominators and recorded owners of horses enrolled in the program. The stallion subscriber receives 20 percent of the dividend, the foal nominator 10 percent and the foal's recorded owner on December 31 of the showing year receives 70 percent.

#1 on Leading Sires List

Twelve-time Breeders' Trust Leading Sire Zippos Sensation has sired 876 APHA-registered offspring, of which 593 have been enrolled in the Breeders' Trust program.

A perennial chart-topper, Zippos Sensation was once again named Breeders' Trust Leading Sire—this marked the 1993 sorrel overo stallion's 12th time to lead the annual list.

In 2012, "Zippo" had 137 foals earn 7,627 points, good for \$68,368. This represents the greatest number of point-earning foals for any No. 1 Breeders' Trust stallion in the program's history and the second-highest number of points earned by those foals, second only to Zippo's get in 2011. Owner Andrea Simons of Aubrey, Texas, recognizes the efforts of breeders, exhibitors and trainers that have helped make Zippo a legendary sire—she says breeding numbers seem to be on an increase for 2013, so Zippo might continue to reign for years to come.

"We're just really grateful to everybody who's had faith in him all these years," she said. "I am just amazed that we happened to be at the right place at the right time and had a lot of luck. He's just a dream come true."

Well known even outside of the Paint Horse industry, Andrea says Zippo has served as a goodwill ambassador for the breed. Always happy to receive visitors, Zippo fills the role well.

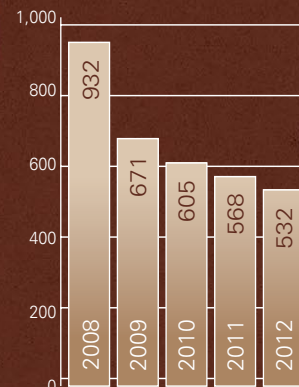

"He knows he's very special and it's because of the people who love him," Andrea said. "It's been an amazing ride."

The sire subscriber receives 20 percent of his offspring's Breeders' Trust earnings while the nominator of the foal receives 10 percent and the foal's owner receives 70 percent.

#1 Money Earner

Coleen Bull and Timeless Assets spent a lot of time on showmanship, resulting in a third straight win in Masters Amateur Showmanship at the 2012 World Championship Show.

Forsaking most Open classes in 2012 in order to focus almost exclusively on Amateur events, Timeless Assets' rise to the top of the Breeders' Trust chart is even more impressive. "Tucson" became the program's leading point-earning horse for the third-consecutive year.

"Last year, we decided we would drop most of the Open classes," said the 2005 bay overo gelding's owner, Coleen Bull. "I have a young man—Mat Korman—who loves him and shows him in Overo Color, and Garth [Gooding] shows him in trail. That's pretty much it for the Open classes."

Coming into the 2012 APHA World Championship Show, Coleen wasn't certain she and Tucson could repeat last year's accomplishments, but by the end of the Amateur classes on November 13, the pair had again captured the All-Around Masters Amateur award, earning 121 points and four world championships, including a third straight win in Masters Amateur Showmanship.

"The show was amazing," she said. "I didn't think I could top last year because last year was so amazing, but this year was even better. It's so hard to believe."

Earning 1,358 Open and Amateur points in 2012, Tucson netted a paycheck worth \$12,173. That money was split between Coleen, breeder Charlene Lee Maybury of West Jefferson, Ohio, and nominator Bunny Knaus of Monticello, Indiana. By Frozen Assets, Tucson is out of This Times Divine.

Breeders' Futurity has a successful third year

APHA's Breeders' Futurity program continues to gather steam. Established in 2009, this prestigious competition featured the finest American Paint Horses and exhibitors in the world competing in a select slate of classes during the APHA World Championship Show. The Breeders' Futurity is designed to showcase the offspring of Breeders' Trust-enrolled stallions and mares bred to those stallions. In 2012, the program boasted 174 entries vying for a total of almost \$164,000 in purse money and awards in the four divisions—Platinum, Gold, Silver and Bronze.

Paint Racing Year in Review 2012

For Paint Racing enthusiasts, 2012 was a year of consistent progress.

Familiar favorites continued their winning ways. For the second straight year, 2011 Champion's CRM Livewire and Flashthechicks earned World Champion Racing titles in the Regular Registry and Solid Paint-Bred divisions, respectively.

CRM Livewire came on strong in the latter part of the year. He finished first in the G1 Speedhorse Paint & Appaloosa Derby in August earning \$19,254 for the win with a 101 speed index. November brought another win in the inaugural Masterpiece Challenge Race earning \$16,670 and taking the field in the Talimena Handicap adding \$14,730 to his bankroll for the year. The 2009 bay tobiano stallion garnered \$72,799 in earnings for Dan and Kaye Jones of Kemp, Texas, bringing his lifetime earnings to \$90,190. The son of Cartel Success AQHA and out of Elaina Go Go, CRM Livewire was named 2012 Champion 3-Year-Old Colt, Champion 3-Year-Old, #1 Honor Roll Stallion and World Champion Running Horse.

Success started in the spring for Flashthechicks, the 2009 sorrel gelding owned by Shirley Wheeler of Boynton, Oklahoma. Flashthechicks brought home first place earnings in the PSBA Derby at Remington Park Racetrack and the Oklahoma Horsemen's Association Derby at Fair Meadows Racetrack bringing his 2012 earnings to \$87,532 with lifetime earnings of \$273,539. Flashthechicks is the son of Royal Quick Flash and out of Game Chicken. For the second consecutive year, Shirley Wheeler was named the Leading Breeder and Owner, earning a total of \$170,809.

Twenty-nine Paint track records were broken at various tracks in the US and Canada with four being broken by the 2012 champions. Mantracker broke three Paint track records in Canada – Ajax Downs 220 yards in 12.07 seconds, Fort Erie 250 yards in 13.53 seconds and 350 yards in 17.97 seconds.

Two 2-Year-Olds broke the \$100,000 earnings for the year, Ubuyillfly by Country Quick Dash and out of Strafing Run AQHA finished 2012 with a total of \$124,368 for owner Mary Hainline. Champion 2-Year-Old Gelding and 2-Year-Old Lajollas Mr Big Stuff who is by Royal Quick Flash and out of MCM Evelyn Lajolla garnered \$112,729 for owner Jane Cullum.

Sires Awesome Chrome and Royal Quick Flash made their own headlines in 2012. Awesome Chrome (2001), owned by Awesome Chrome Partnership in McAllen, Texas joined 4 other great stallions in the \$1 million sire club while Royal Quick Flash joined Judys Lineage in the \$4 million sire club.

Mantracker, owned and bred by Dr. Guylain Paquin of Ontario, Canada, earned the Canadian champion title for 2012. The mare by Country Quick Dash and out of Treasure Winner earned \$31,736 for the year bringing her lifetime earnings to \$35,603 and a speed index of 95.

The new Racing Stakes eligibility rule took effect with the 2012 breeding season, requiring Regular Registered foals have at least one Regular registered Paint parent in the first generation and Solid Paint-Bred foals have at least one Regular registered Paint parent in both the first and second generation.

Lewis Wartchow and Got Country Grip were inducted into the Oklahoma Horse Racing Hall of

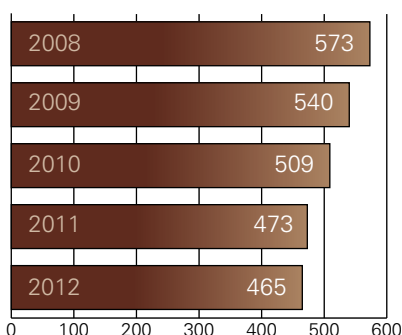

The 2012 American Quarter Horse & Mixed-Breed Season at Remington Park was completed on Memorial Day, May 28, and enjoyed 15.4% more guests over the 50-dates compared to the prior year. The increase is attributed to the higher-level of racing competition as well as a consistent series of promotional events throughout the season. The season regularly featured the sport's top horses with the likes of Paint Horse Barney Ofield breaking Got Country Grip's speed record for the 440.

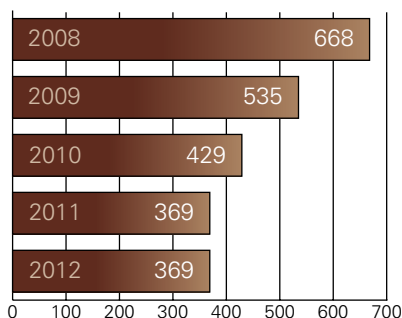

CRM Livewire captured the win at the inaugural Masterpiece Challenge race at Lone Star Park, finishing the year with notable title of World Champion Regular Registry Racehorse and \$72,799 in 2012.

Flashthechicks brought his lifetime earnings to \$273,539 for owner/breeder Shirley Wheeler, along with a World Champion title in the Solid Paint-Bred division.

"King of Paints" Lewis Wartchow and Got Country Grip were inducted into the Oklahoma Horse Racing Hall of Fame.

Ray Graves was recognized with the Paul Harber Distinguished Service Award. He has bred and/or owned more than 100 horses during his career, including Sky Top Bar, Fair Look, Last Date, Dr Beduino and Aze Beduino to name a few.

Fame. A beloved trainer for decades, Wartchow of Ada, Oklahoma, was known as the "King of Paints" for his years of success with the Paint breed until his death in 2003. Remington Park and Fair Meadows hold yearly stakes races in his honor. The all-time leading money earner for Paint racing, Got Country Grip began his career in 2005, breaking his maiden on his first out. His career brought 16 consecutive wins; one of two horses that broke the modern-day North American record of 15. Got Country Grip continues to hold the leading lifetime money earning title earning more than \$360,000.

Lone Star Park Racetrack hosted the inaugural Masterpiece Challenge race which had seven runners competing for the \$27,330 purse. When the dust settled, it was CRM Livewire at the finish line with a time of 19.84 seconds with SW Eye Candy, Spotless Redneck, Rawhide Legend and Dosofme following.

The *Speedhorse* Triple Crown program saw Ubuyillfly winning the first leg, the *Speedhorse* Graham Paint & Appaloosa Futurity; Lajollas Mr Big Stuff winning the second leg, the *Speedhorse* Paint & Appaloosa Futurity; and Imachickenkicker winning the Lone Star *Speedhorse* Paint & Appaloosa Futurity. Super Glide Harley was named the *Speedhorse* Paint & Appaloosa High Point Champion and received \$2,500 from sponsor Ra-Max Farms.

The 2011 Paul Harber Distinguished Service Award recipient was presented to Ray Graves. Ray began training and racing Paints in the late 1960's. His success led him to train multiple racing champions including Sky Top Bar, Fair Look, Last Date, Dr Beduino and Aze Beduino to name a few. In 1982, he was named Trainer of the Year and took some of the best Paint horses to the top not only in racing but in his breeding operation known as the Quarter Moon Ranch. He has bred and/or owned over 100 horses during his career. In 1973, Ray co-founded the Paint Stallion Breeders Association (PSBA), an organization aimed at promoting Paint stallions and their offspring. For years it was the richest Paint futurity in the World and today it remains one of the longest running races for Paints. In 1979, Ray served as President of the Oklahoma Paint Horse Club and on the APHA Executive Committee. He has been an Oklahoma Director since 1966 – being one of an elite group in the association's history. He has served on the APHA Racing committee since 1968 and continues to be very involved in all aspects of Paint racing.

Paint Racing finished the year with 465 starters, 386 races and \$4,123,244 in purse money. The *Speedhorse* Graham Paint & Appaloosa Futurity once again offered the largest purse at \$240,760.

Publications

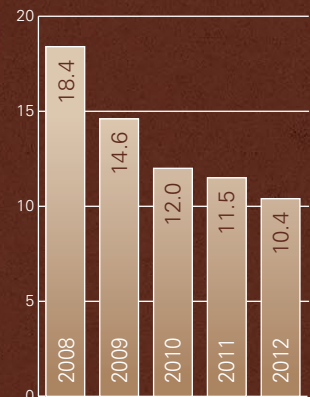

The American Paint Horse Association produces a number of award-winning magazines dedicated to the versatile American Paint Horse and the people who love them. These publications include the *Paint Horse Journal*, *Paint Horse Connection* and *Paint Horse Racing*.

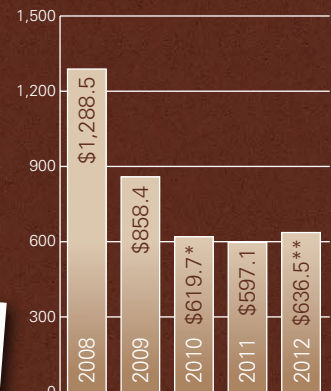

- All three publications helped APHA celebrate its 50th anniversary during 2012, producing a number of special historical articles as well as the commemorative February 2012 *Paint Horse Journal*. Included as part of the magazines' 50th anniversary coverage was "APHA Milestones," an 11-part series by noted equine historian Frank Holmes; "Time Flies," a timeline chronicling the association's first 50 years; and "The Next 50 Years," a 10-part series examining how specific issues might affect the horse industry in the future.

- Director of Advertising Jackie McGinnis helped increase sales figures for eight issues during 2012—these included June, which saw a 26% increase over 2011; July, which had a 50% increase; and October, which had a 34% increase in sales. The October 2012 issue, for example, was 312 pages with 159 full-page advertisements, compared to 240 pages and 93 full-page advertisements in the October 2011 issue. The *Journal's* average circulation for 2012 was approximately 10,400 with an estimated pass-along readership of more than 30,000.

For the first time, 25 AjPHA leaders also convened at APHA Workshop for their Youth Leadership Conference, doubling the numbers from the 2011 event.

Youth Association numbers are up

AjPHA continued to move forward in 2012, with continued support and interaction with the regional clubs as well as the 4-H program. The sponsorship program for state 4-H shows was enhanced this year with additional money for clubs to host an event or awards for the youth at the state 4-H show.

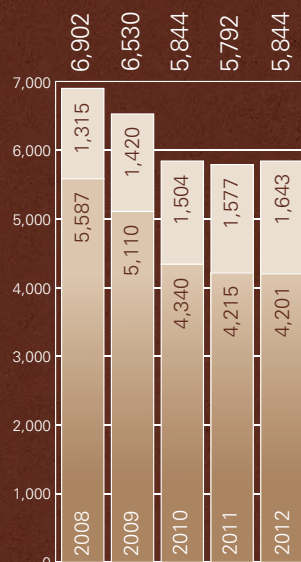

The 2011-2012 Presidential Service Project serving Saint Jude Children's Hospital brought some much-needed funding for a great charity and fun for AjPHA members. The 2012 Club of the Year Award was taken home by the Arizona Junior Paint Horse Club who also received a \$1,000 check sponsored by Carson Underwood. The Missouri Paint Horse Club came in a close second. The recipient of the Youth Member of the Year award and a \$1000 scholarship was Kelsey Ritchie from Tulsa, Oklahoma.

The 2012 Youth Leadership Conference took the youth to Grapevine, Texas, for some Texas-size fun and brainstorming. The kids were involved in meetings and decision-making along with a little bit of fun added in. The group made a huge effort to bring sportsmanship to the forefront by creating a Code of Conduct that was presented to the entire APHA Workshop membership. The Code of Conduct made its debut at the 2012 Youth World show and created a positive atmosphere for the youth. What a great year we have had, and are looking forward to continued growth and development in 2013.

Independent Auditor's Report

To the Board of Directors American Paint Horse Association

We have audited the accompanying financial statements of the American Paint Horse Association (a non-profit Texas corporation), which comprise the statements of financial position as of December 31, 2012 and 2011, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

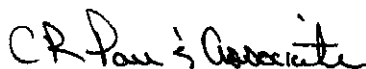

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the statement of financial position of the American Paint Horse Association as of December 31, 2012 and 2011, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements (For the Years Ended December 31, 2012 and 2011)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Activities

The American Paint Horse Association, Inc. (The Association) is a not-for-profit membership organization incorporated under the laws of Texas and exempt from income tax under Section 501(c)(5) of the U.S. Internal Revenue Code. The Association was formed in 1962 to collect, record, and preserve the pedigree of Paint Horses. In addition, the Association is responsible for promoting and disseminating knowledge and information related to the Paint Horse breed.

Basis of Accounting

The accounts are maintained and the financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Under the accrual basis of accounting, the Association's financial statements reflect significant receivables, payables, and other liabilities.

Basis of Presentation and Revenue Recognition

The Association is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted net assets. The Association has no permanently restricted net assets.

Membership dues and subscription fee revenues are recognized over the applicable membership or subscription period. All other revenue is recognized in the period in which the services are provided. Breeders Trust and Breeders Futurity ("Breeders' Trust Programs") support is recognized as temporarily restricted net assets and will be released from restrictions in the applicable distribution years. (See Note 3. RESTRICTED PROGRAMS, Breeders' Trust Programs.)

Notes to Financial Statements

Cash and Cash Equivalents

For purposes of these financial statements, the Association considers cash to be all cash on hand, cash in banks in demand accounts, cash in investment brokerage money market accounts, as well as amounts deposited in U.S. Treasury backed money market accounts. Cash, restricted, is cash deposited specifically for the Breeders' Trust Programs and is held in separate accounts.

Accounts Receivable

Accounts receivable are included in the accompanying statements of financial position at original invoice net of the allowance for doubtful accounts. The accounts receivable balance is comprised of amounts owed to the Association for magazine advertising and other miscellaneous receivables.

The Association determines its allowance based on specific uncollectible accounts. The Association writes off receivables when they become uncollectible. The Association has had minimal losses on accounts receivable in prior years. The allowance for doubtful accounts in 2012 and 2011 is \$4,000 and \$6,000 respectively.

Fair Value of Financial Instruments

The carrying value of the Association's financial instruments, not otherwise disclosed herein, is comparable to the fair value due to the short-term nature of these financial instruments.

Investments

The Association carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statement of financial position. The Association has investments in Structured Investments (See Note 4. INVESTMENTS, UNRESTRICTED) with embedded derivatives, which are financial instruments whose performance is linked to that of an underlying asset or assets. The Structured Investments are bonds with various embedded market indices used to hedge against interest rate fluctuations. The Association's investment policy allows for the use of derivatives for this purpose. Unrealized gains and losses of all investments are included in the change in net assets in the accompanying statement of activities.

General Store Inventory

The APHA General Store Collection held for resale and promotional inventory is carried at the lower of cost or market determined by first-in, first-out method. Annual merchandise write-downs to market of all items determined to be slow moving or obsolete are reflected on the statements of activities under program services, General store. Write-downs for the years ending December 31, 2012 and 2011 were \$7,590 and \$3,282 respectively.

Property, Equipment, Depreciation and Collections

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which range from 3-40 years. For marketing furniture and equipment, APHA capitalizes everything in excess of \$400. For all other fixed asset categories, APHA capitalizes everything in excess of \$1,000.

The Association possesses various prints, original paintings and bronze sculptures purchased and carried at their cost or received as unrestricted gifts and carried at their estimated fair value. These works of art are on display and were not purchased or received for the purpose of re-sale. These items are not depreciated. (See Note 7, PROPERTY AND EQUIPMENT, Collectibles)

Income Taxes

The Association is exempt from federal income taxes under Section 501(c)(5) of the Internal Revenue Code. The accounting standard on accounting for uncertainty in income taxes, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Association may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the Association and various positions related to the potential sources of unrelated business taxable income (UBIT), such as advertising in the Association's magazine. There was no income tax expense for 2012 or 2011.

Notes to Financial Statements

The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as liabilities for 2012 or 2011.

The Association files forms 990 and 990-T in the U.S. federal jurisdiction. The Association is generally no longer subject to examination by the Internal Revenue Service for years before 2009.

Functional Allocation of Expenses

The costs of providing the activities of the Association have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Advertising

Advertising is recorded as an expense when incurred. For the years ended December 31, 2012 and 2011, advertising expense was approximately \$53,542 and \$89,017, respectively.

Concentration of Credit Risk

During the last two years ended December 31, 2012 and December 31, 2011, all noninterest bearing transactions were fully insured regardless of the balance of the account at all FDIC-insured institutions. Beginning January 1, 2013, Section 335 of the Dodd-Frank Act permanently increased the standard maximum deposit insurance amount to \$250,000 per depositor.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual result could differ from those estimates.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year financial statements.

6. FAIR VALUE MEASUREMENTS

The revised guidance for fair value measurements defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the assets or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (1) independent, (2) knowledgeable, (3) able to transact and (4) willing to transact.

The guidance for fair value measurements for financial assets and financial liabilities requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement cost). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the guidance

Notes to Financial Statements

FAIR VALUE MEASUREMENTS – Continued

establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs – Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means.

Level 3 Inputs – Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participant would use in pricing the assets or liabilities.

A description of the valuation methodologies used for assets measured at fair value, as well as the general classification of these assets pursuant to the valuation hierarchy, is set forth below.

12. RELATED PARTIES

American Paint Horse Foundation

The Foundation is a separate corporation (not-for-profit) organized for the purpose to reward and educate young horsemen and women and to preserve the history of the breed's accomplishments and artifacts associated with the outstanding bloodlines of the breed and individuals and institutions who contributed to these accomplishments. It is chartered as a non-profit corporation in the state of Texas and is exempt under U.S. Internal Revenue Service Revenue Code 501(c)(3) as a charitable publicly supported organization under 509(a)(1).

The Association contributes to the Foundation the accounting, managerial and administrative services necessary for the ordinary day-to-day operations. During 2012 and 2011, the amount of like-kind contributions to the Foundation in expenses and services rendered amounted to \$17,135 and \$19,900, respectively. In addition, the Association made unrestricted contributions in 2012 and 2011 of \$3,000 and \$4,401, respectively.

13. SUBSEQUENT EVENTS

Management has evaluated subsequent events through April 10, 2013, which is the date the financial statements were available to be issued. Each year the City of Fort Worth, as required by the Events Trust Fund statute, estimates the amount of tax revenue increase related to the Association events held in Fort Worth. The City of Fort Worth is given as estimate of money that will be given to the Association as a result of this increase and the Association sets this up as a receivable. As of April 10, 2013, the amount to be paid the Association is in question, and as a result, the Association estimates its risk of loss to be in the range of \$0 to \$207,107.

ANNUAL
REPORT

A Message from the President

Dear Friends of the American Paint Horse Foundation,

This past year was an exciting one for your Foundation. The Foundation's endowment continues to grow and as part of a continuing commitment to improving our focus and efficiency, the Foundation Board made important clarifications to the mission statement and protocols of operations.

It is important for Foundations such as ours to recognize that efforts can all too easily become spread too thin. To have meaningful impact, energy and treasure must be directed toward well defined, specific goals. To assure continued effective stewardship of our resources, the Board recommitted to supporting our original 'reasons for being'. Philanthropic energies are now concentrated on: Heritage and Scholarship and the health of the horse. Funds managed by the Foundation are directed toward these specific activities. Consistent with the rededication, our support of Therapeutic Riding (TR) is now directed toward educating health practitioners in TR. The intention is to increase the numbers of rehabilitation professionals with TR certification. Further, the long-term health of the Foundation will improve as we shift our effort away from hand-to-mouth fundraising and toward building significant endowments in support of ongoing activities.

For 2013 and beyond, The Foundation has accepted two new Heritage activities. Both the development of a Heritage Museum and the Hall of Fame selection process are now under the Foundation's umbrella.

The APHF Board continues to pledge due diligence to assure the most effective use of every donated dollar. Every Board member is a volunteer, serving without pay. Every dollar donated to our purpose is applied to conservation of our heritage, support of education, and improving the health of the horse.

It has been my great pleasure to have served these past three years as president of the American Paint Horse Foundation. The business of the Foundation will be well administered by new Foundation president, Linda Gordon of Argyle, Texas. Cheryl Newman, from New Berlin, Illinois, will continue to serve the Foundation as its vice president. I extend my warmest best wishes to both for their upcoming terms in office.

Sincerely,

A handwritten signature in black ink that reads "John F. Hertner".

Independent Auditor's Report

To the Board of Directors of American Paint Horse Association

We have audited the accompanying financial statements of the American Paint Horse Foundation (a non-profit Texas corporation), which comprise the statements of financial position as of December 31, 2012 and 2011, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

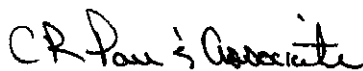

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the statement of financial position of the American Paint Horse Foundation as of December 31, 2012 and 2011, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements

(For the Years Ended December 31, 2012 and 2011)

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Activities

The American Paint Horse Foundation (Foundation) is organized for the purpose to reward and educate young horsemen and women and to preserve the history of the breed's accomplishments and artifacts associated with the outstanding bloodlines of the breed and individuals and institutions who contributed to these accomplishments. The Foundation resulted from a merger in 2005 between the American Paint Horse Heritage Foundation and the American Paint Horse Association Youth Development Foundation. It is chartered as a non-profit corporation in the state of Texas and is exempt under U.S. Internal Revenue Service Revenue Code 501(c)(3) as a charitable publicly supported organization under 509(a)(1).

Basis of Accounting

The accounts are maintained and the financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Under the accrual basis of accounting, the Foundation's financial statements reflect significant receivables, payables, and other liabilities.

Basis of Presentation and Revenue Recognition

The Foundation is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted net assets. The Foundation has permanently restricted net assets of \$902,500 as of December 31, 2012 and \$822,992 as of December 31, 2011.

Contributions received and fund raising income is recognized in the period in which the services are provided.

Cash and Cash Equivalents

For purposes of these financial statements, the Foundation considers cash to be amounts in demand accounts and money market accounts. Cash, restricted, is cash deposited specifically determined by the donor's intent and is held in separate accounts.

Accounts Receivable

Accounts receivable are included in the accompanying statements of financial position at the original invoice amount. The accounts receivable balance is comprised of amounts owed to the American Paint Horse Association ("Association") and other miscellaneous receivables. (See Note 6, RELATED PARTY.)

The Foundation does not have an allowance for doubtful accounts, as management believes that all of its receivables are fully collectible.

Fair Value of Financial Instruments

The carrying value of the Foundation's financial instruments, not otherwise disclosed herein, is comparable to the fair value due to the short-term nature of these financial statements.

Notes to Financial Statements

Investments

The Foundation carries its investments in debt securities and common stock equities at their fair values in the statement of financial position. Unrealized gains and losses of all investments are included the change in net assets in the accompanying statement of activities.

Inventory

The bronze collection inventory held for resale is carried at the lower of cost or market determined by the first-in, first-out method.

Property, Equipment, Depreciation and Collections

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which is 4 years. The Foundation capitalizes asset improvements and additions in excess of \$500. In 2012, the Foundation instituted a policy in which all fully-depreciated furniture and equipment is removed from the books. In 2012, \$8,319 of fully-depreciated furniture and equipment was removed from the books.

The Foundation possesses various prints, original paintings and bronze sculptures purchased and carried at their cost or received as unrestricted gifts and carried at their estimated fair value. These works of art are on display and were not purchased or received for the purpose of re-sale. These items are not depreciated. (See Note 5, PROPERTY, EQUIPMENT AND COLLECTIONS.)

Income Taxes

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Foundation may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. An example of a tax position is the tax-exempt status of the Foundation. There was no income tax expense for 2012 or 2011.

The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as liabilities for 2012 or 2011.

The Foundation files Form 990 in the U.S. federal jurisdiction. The Foundation is generally no longer subject to examination by the Internal Revenue Service for years before 2009.

Advertising

Advertising is recorded as an expense when incurred. For the years ended December 31, 2012 and 2011, advertising expense was approximately \$ 5,135 and \$ 7,900, respectively.

Concentration of Credit Risk

During the last two years ended December 31, 2012 and December 31, 2011, all noninterest bearing transactions were fully insured regardless of the balance of the account at all FDIC-insured institutions. Beginning January 1, 2013, Section 335 of the Dodd-Frank Act permanently increased the standard maximum deposit insurance amount to \$ 250,000 per depositor.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements

2. RESTRICTED PROGRAMS

4. FAIR VALUE MEASUREMENTS

The FASB guidance for fair value measurements defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to see the assets or transfer the liability occurs in the principal market for the assets or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (1) independent, (2) knowledgeable, (3) able to transact and (4) willing to transact.

The guidance for fair value measurements for financial assets and financial liabilities requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement cost). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, the guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs—Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs—Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means.

Level 3 Inputs—Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumption that a market participant would use in pricing the assets or liabilities.

Notes to Financial Statements

6. RELATED PARTY

A portion of the Foundation's day-to-day functions are conducted by employees of the American Paint Horse Association (Association). The Association is a separate corporation (not-for-profit) organized for the purpose of collecting, recording and preserving the pedigree of the Paint Horse. The Foundation is managed by a board of directors which consists of members of the Association. These services and expenses are listed as an unrestricted support contribution and then as corresponding expenses per the criteria for recognition under generally accepted accounting principles. At December 31, 2012 and 2011, the amount of like-kind contributions was \$17,135 and \$19,900, respectively. In addition, the Association made unrestricted contributions in 2012 and 2011 of \$3,000 and \$4,401, respectively.

7. SUBSEQUENT EVENTS

Management has evaluated subsequent events through April 10, 2013, which is the date the financial statements were available to be issued. No material subsequent events occurred through April 10, 2013.
