**Why do you want to be and APHA State Director?**

I have great passion for Paint Horses and the Ranch Versatility classes. I have a strong desire to help the Association grow and bring the American Paint Horse onto the world stage as being just as versatile, athletic and talented as any Quarter horse

I like to work with others who have the same level of passion as I do to better things for all horses and riders and work diligently to continue to bring in and assist more youth in the association
