

Jason Hollinger, Pennsylvania Paint Horse Club

I grew up in Manheim, PA and enjoyed showing cattle and livestock at local fairs through my youth. The hard work and dedication to show animals helped form the path of my life and shape my values through adulthood. When I met Amanda in 2007 she re-introduced me to horses and I soon became addicted and joined the APHA. Amanda and I married and started Hollinger Farms where she trains and gives lessons full time. We also have a boutique breeding operation which is my real passion, I love seeing the babies grow and be successful in the show pen. We spend many hours pouring over stallion and mare information to create the perfect match to produce future show horses. I enjoy being active with the Pennsylvania club by helping at horse shows, with the youth club, and through sponsoring. You can find me at every show in our zone chasing my two boys, grooming horses, and lending a hand when it's time for the heavy lifting.

Amanda and I enjoy spending time with our two boys, Trent and Case, who keep us on our toes! I enjoy hunting when I can find the time. I work full time for my family business, JL Hollinger and Sons Equipment Sales, Inc., as well as our personal business, Hollinger Farms, Inc. We are committed to community support through philanthropic and volunteer efforts at both businesses; a stronger, more close-knit community that supports local business benefits everyone. I look forward to serving the APHA and representing the people of Pennsylvania if I get elected.
