My first world title was in 1996, I've earned and accomplished many titles since then.

Service & Experience

Most of my experience outside of serving on committees for APHA is as a competitor. I come from a multi-faceted background. I've done reining, all-around, freestyle, and ranch events. I come from a different perspective than most since I have exposed myself to so many different disciplines. I believe my horsemanship is a testament to my diverse experience and commitment to my love of horses, not about the accolades and accomplishments. That being said, my winning history is long and I am proud of my accomplishments.

Third year serving as an appointed director for APHA.
Currently serving on the World Show Committee.
Currently serving on the Amateur Committee.
Former vice chair of the World Show Committee.
Ownership sub-committee - Amateur Committee.
Awards sub-committee - World Show Committee.

Why do you want to be an APHA State Director?

I'm passionate about the mission of APHA. I believe in creating pathways to grow together to build an organization that is strengthened through diversity and that embraces the perspectives of the youth and the future of horsemanship and APHA. I've really enjoyed my experience serving thus far and appreciate being a part of the process of making decisions, forming policy and shaping the future of the organization.
