Regional Club:
Past President
Board Member
Show Committee Member
Show Manager
Show Volunteer
Club Volunteer

Why do you want to be and APHA State Director?

My family has been involved with APHA since 1974. During that time, my family has been promoters of Paint Horses by being breeders, owners, exhibitors along with Regional Club officers and volunteers. I began my APHA involvement at an early age, being an active AjHPA member and showing through out my youth career. After college, I took over my family's small farm where I continue to be involved with APHA by breeding, raising and showing Paint Horses. I've had many experiences at the local level to the national level serving APHA. I have an excellent attendance record and have been very involved in all of my committee assignments during my service to APHA.

I have served over 10 years as a Director for the State of Kansas. During that time I've been involved with and author of several Rule Change Proposals that made positive impacts on APHA and the restructuring of APHA's Breeders Trust Program. I have leadership experience in APHA and in my professional career that will be an asset if I'm re-elected as a director.

I am very passionate about the Paint Horse, and I want to continue my work as a Director and a Committee member for years to come.
